- Chlorpropamide (Diabinese)
- Dulaglutide (Trulicity)
- Exenatide (Byetta)
- Exenatide ER (Bydureon)
- Gliclazide (Glucotrol)
- Glimepiride (Amaryl)
- Glimepiride-Pioglitazone (Duetact)
- Glimepiride-Rosiglitazone (Avandaryl)
- Glipizide (Diamicron)
- Glipizide-Metformin (Metaglip)
- Glyburide (Diabeta, Glynase, Micrnase)
- Glyburide-Metformin (Glucovance)
- Insulin (long- or short-acting)
- Linagliptin (Tradjenta)
- Linagliptin-Empagliflozin (Glyxambi)
- Linagliptin-Metformin (Jentadueto)
- Liraglutide (Victoza)
- Metformin-Alogliptin (Kazano)
- Metformin-Dapagliflozin (Xigduo XR)
- Metformin-Canagliflozin (Invokamet)
- Metformin-Linagliptin (Jentadueto)
- Metformin-Empagliflozin (Synjardy)
- Metformin-Linagliptin (Jentadueto)
- Metformin-Glyburide (Glucovance)
- Metformin-Pioglitazone (Actoplus)
- Metformin-Repaglinide (PrandiMet)
- Metformin-Rosiglitazone (Avandamet)
- Metformin-Saxagliptin (Kombiglyze XR)
- Metformin-Sitagliptin (Janumet)
- Miglitol (Glyset)
- Nateglinide (Starlix)
- Pioglitazone (Actos)
- Pioglitazone-Alogliptin (Oseni)
- Pioglitazone-Glimepiride (Duetact)
- Pioglitazone-Metformin (Actoplus Met)
- Repaglinide (Prandin)
- Repaglinide-Metformin (Prandimet)
- Rosiglitazone (Avandia)
- Rosiglitazone-Glimepiride (Avandaryl)
- Rosiglitazone-Metformin (Amaryl-M)
- Saxagliptin (Onglyza)
- Saxagliptin-Metformin (Kombiglyze XR)
- Semaglutide (Ozempic)
- Sitagliptin (Januvia)
- Sitagliptin-Metformin (Janumet)
- Sitagliptin and Simvastatin (Juvisync)
- Tolazamide (Tolinase)
- Tolbutamide (Orinase, Tol-Tab)
